**SE-MA-NO Electric Cooperative, Inc.****Dear Neighbor and Valued Member,**

I hope this letter finds you well. As part of our ongoing commitment to maintaining reliable electric service and ensuring the safety of our infrastructure, we would like to inform you that your rural electric cooperative will be performing vegetation management in the Seymour, Mansfield and Norwood areas this summer.

Vegetation management is essential for preventing tree-related outages and ensuring the safety of our power lines. This year, we will be utilizing herbicides as part of our vegetation-management program.

The application of these herbicides will help control the growth of unwanted vegetation around our power lines, allowing us to maintain clear access and reduce the risk of outages.

We want to assure you that the herbicides we use are approved by regulatory agencies and are applied by trained professionals following all safety guidelines. Our team will take every precaution to minimize any impact on the surrounding environment and to ensure the safety of our members and their properties.

The vegetation management work is scheduled to begin mid-July and should take approximately two weeks to complete. We will be working in various locations throughout the area, and you may notice our crews and equipment in your vicinity during this time.

If you have any questions or concerns regarding this process, please do not hesitate to reach out to Terry Allen, ROW Coordinator, at (417) 924-3291 or e-mail tallen@semano.com. We appreciate your understanding and cooperation as we work to enhance the reliability of your electric service.

Thank you for being a part of such a strong cooperative community.

**Sincerely,
Dan Sisco**
